

ACT

Renewable Gas **Certificate**

With this certificate, ACT Commodities BV confirms that
Bruynzeel Storage Systems B.V.
has purchased 4.273 MWh Vertogas Certificates.

The certificates were issued on the Vertogas platform for the injection of Biomethane into the grid. The Biomethane is digested from organic feedstocks in the Netherlands, the CO2 footprint is 0,0 Kg of CO2 per MWh. Bruynzeel Storage Systems B.V. has invested in the offtake of Biomethane. Vertogas Certificates are redeemed on the Vertogas platform to underwrite the consumption of biomethane by Bruynzeel.

<i>Volume</i>	4.273 MWh
<i>Technology</i>	Anaerobic Digestion
<i>Origin</i>	The Netherlands
<i>Consumption</i>	2023
